It's really impossible for me to pay for this course. Financial Aid will help me take this course without any adverse impact on my monthly essential needs. I want to take this course as I want to complete the Internet of Things Development Specialization on Coursera.

I want to complete the Internet of Things Development Specialization on offer by The califo rnia University of Science and Technology, Irvine. This Specialization will boost my job pr ospects after graduation from my institute. It will help perform better in carrying out Web Development and give me an edge over my competitors. A verified certificate will attach cr edibility to the certificate I receive from this course.

I plan to complete all assignments on or before time as I have done in previous Signature T rack Courses. Also I intend to participate in Discussion Forums, which I have found to supp lement my learning immensely in the other online courses I have taken on Coursera. I also p lan to grade assignments which are to peer reviewed which I believe will an invaluable lear ning opportunity.

New:
Iâ\200\231m a student from India, telangana and want to learn Marketing. I think it will be beneficial for my thesis work. But Iâ\200\231ve no job of my own to carry the expanses to pay for the certificate of this course. In this circumstance, it is very much difficult fo r me to gather such amount of money for the certificate. Financial Aid will help me take th is course without any adverse impact on my monthly essential needs. So Iâ\200\231m badly i n need of this financial aid.
I want to take this course as I want to learn Marketing in English.

I want to complete the Marketing: Customer Needs and Wants Course on offer by IESE Business School. This Course will boost my job prospects after graduation from my institute. It wil l help perform better in carrying out Marketing and give me an edge over my competitors. A verified certificate will attach credibility to the certificate I receive from this course. I plan to complete all assignments on or before time as I have done in previous Signature T rack Courses. Also I intend to participate in Discussion Forums, which I have found to supp lement my learning immensely in the other online courses I have taken on Coursera. I also p lan to grade assignments which are to peer reviewed which I believe will an invaluable lear ning opportunity.

As I know IOT is very powerful language an It is very easy and quick learning language. It is widely used programming language.The coding style in IOT is easier than Java and any oth er language.

And taking this course will achieve me for getting the high paying job very quickly that wi ll solve my family problem.

Programming in IOT is a widely used high-level programming language for general-purpose pro gramming.

Including IOT we have C programming features a dynamic type system and automatic memory man agement and supports multiple programming paradigms, including object-oriented, imperative, functional programming, and procedural styles.

C language interpreters are available for many operating systems, allowing C/C++ code to ru n on a wide variety of systems.

C is a multi-paradigm programming language: object-oriented programming and structured prog ramming are fully supported, and many language features support functional programming and aspect-oriented programming (including by meta programming and meta objects (magic methods)) . Many other paradigms are supported via extensions, including design by contract and log ic programming.
